

THE CANTABRIA LOOK BOOK

*See how the state-of-the-art canopy is being used
by the hospitality world...in pictures*

One canopy, so many different uses...

It's not uncommon for people to think outdoor canopies are just used to create extra wining and dining space.

If only it were true...

Outdoor canopies are versatile outdoor structures that can be used to provide much-needed seating and dining space.

And with features, including a **retractable roof** that can be opened and closed at the touch of a button, **sliding glass screens** and **integrated heating and lighting**, it's really easy to see why they're such a popular investment among hospitality managers.

There's also the fact outdoor canopies can significantly **boost revenue** too. Restaurant, pub, bar and hotel owners who install our Cantabria canopy can create:

Up to 184 additional covers*

An additional weekly revenue of more than £7,000**

Space-generating and profit-boosting, what's not to love? No wonder we've installed so many of our Cantabria canopies far and wide and the system's proving to be the answer to most restaurant, pub, bar and hotel managers' and owners' problems.

Let's take a look at some current outdoor restaurant patio design ideas...

** Based on Friday and Saturday, 2 sittings per day.*

*** Based on £40 per cover = £7,360.*

The Southampton Harbour Hotel & Spa ...exclusive Rolex launch

The hotel hosted an incredibly exclusive event under their Cantabria - Laings Jewellers' showcasing of the Baselworld 2018 Rolex watch collection.

With its contemporary design, the Cantabria provided the ideal backdrop for the prestigious occasion. Meanwhile, the glass sides and retractable roof meant that the space was light, bright and airy, perfectly showing off the watch collection from all angles.

Wildside @ Savage Garden is one of the hotel's latest features.

It's 12-storeys high and features a Cantabria that's equipped with six retractable roofs that really gives it the major wow factor.

The hotel's really making the most of this unique space and has already used it for all sorts of different occasions in addition to everyday entertaining space that offers breath-taking, panoramic views over London.

For instance, it was recently used to host mental health talks and transformed into London's very own Narnia winter wonderland!

“

The canopy on Wildside has been flawlessly designed to accommodate events throughout the year. Come rain or shine, guests can enjoy everything from drinks to private events in the space as the retractable canopy – designed and built as bespoke for Savage Garden – means that the terrace can be cosy and covered during winter, and the perfect suntrap come summer.

Bernadette Gilligan, General Manager

The Greyhound Pub, Derby

World Cup fan zone

The pub transformed their Cantabria into a sporting zone where World Cup fans cheered on Gareth Southgate's England team and watched every penalty, strike and goal together.

With the Cantabria in place, footie fans had their own dedicated area where they could watch the action in the sun or the shade – the main thing was, the weather didn't spoil their enjoyment.

What our Cantabria customers have to say about their outdoor canopy investment...

“

The Cantabria means our customers stay longer, as we can alter the configuration according to the conditions. We often close a couple of the wall panels to provide protection from the wind whilst opening the roof panels to varying extents to allow sunshine in some areas and shade in others.

Interestingly, the Cantabria has become a venue in its own right. Local people are using the canopy and we have hosted a few parties. We have groups lunching there and are serving more food than in the hotel restaurant.

People admire the quality of the structure and it is great for staff to be able to react to ensure customer comfort by opening or closing the canopy and controlling the heaters at the press of a button.

The Garrack Hotel & Restaurant, St Ives Bay, Cornwall

What our Cantabria customers have to say about their outdoor canopy investment...

“

In addition to providing wind, rain and sun protection for our terraced area, the beautiful Cantabria canopy enables us to offer disabled access to the restaurant. And not only do we get full use of our terrace area no matter the weather, we can also leave the patio doors open to let fresh air into the restaurant.

We decided to install a Cantabria canopy because of its very attractive design and unbelievable flexibility; the restaurant is always busy through summer and it's created a lot of interest and lots of positive comments.

Alec's Bar & Restaurant, Essex

What could you use one of our Cantabrias for?

Party space, events space, corporate space, even magical winter wonderland space – you name it, The Cantabria can be used for it.

Plus, the examples we've shared with you show that while the Cantabria is being used differently from one place to the next, it can be used by just one venue for all sorts of different occasions too.
